

## **ABSTRACT**

The word “vote” means to choose from a list, to elect or to determine. The main goal of voting (in a scenario involving the citizens of a given country) is to come up with leaders of the people’s choice. Most countries, Nigeria not an exception have problems when it comes to voting. Some of the problems involved include forging or hoarding of electoral papers, massive transfer of ballot papers, and inflation of election figures and also destruction of ballot boxes. This online voting system seeks to address the above issues and introduce an organized procedure of voting which is the bane of socio-economic and political progress in Nigeria. It should be noted that with this system in place, the users, citizens in this case shall be given ample time during the voting period. They shall also be trained on how to vote online before the election time.
